Article 103 Measures against Anticompetitive Activities

1. Recognising that anticompetitive activities may nullify or impair the benefits of liberalisation of trade and investment and impede the efficient functioning of its market, each Party shall take measures which it considers appropriate against anticompetitive activities, in accordance with its laws and regulations.
2. Any such measures shall be taken in conformity with the principles of transparency, non-discrimination and procedural fairness.
3. For the purposes of this Chapter, “ anticompetitive activity ” means any conduct or transaction that may be subject to penalties, sanctions or other relief under the competition laws and regulations of either Party. In particular, it includes:

Article 104 Cooperation on Addressing Anticompetitive Activities

1. The Parties shall, in accordance with their respective laws and regulations, cooperate on addressing anticompetitive activities, subject to their respective available resources, with the aim of contributing to the effective enforcement of the competition laws and regulations of each Party through the development of a cooperative relationship between the competition authorities of the Parties, thus avoiding or lessening the possibility of conflicts between the Parties in all matters pertaining to the application of the competition laws and regulations of each Party.

2. The details and procedures of cooperation under this Article shall be specified in Chapter 3 of the Implementing Agreement.

Article 105 Consultations

- (a) not examine the appropriateness of the enforcement of the competition laws and regulations by the competition authority of either Party; and
- (b) not infringe upon the independence of the competition authority of either Party in exercising its authority.
